Assessor Comments	A quality line of future breeders, that would complement any herd. Temperament wise, they were easy to handle through the yards. They were yard weaned for 5 days in early December , and have been handled extensively since then. They are Feb/March 2024 drop, and are the complete age drop, with a small tail drafted out. These calves are from Stoney Point bloodlines, and are the annual sale of their weaned heifers. These cattle present in fresh forward store condition with the odd store. They have been grazed on irrigated pastures consisting of clover and rye, which has kept them in fresh condition. They were drenched and vaccinated in early December. They have been weighed to a tight weight range. This vendor also has a line of steers up for sale in the same auction. Put the two lots together for convenient trucking.
