Assessor Comments

Genuine young (2.5 to 5 years) Angus cows with Angus calves (1-3 months) at foot. These cows are only being offered for sale as they are out of sync with our vendors "normal" calving following the 2023 bushfires. Cows weighed 487kg to 678kg to average 568.5kg (14 hour curfew), calves (18 M & 11 F) weighed 54kg to 167kg to average 107kg Our vendors have been securing quality lines of Angus heifers for a number or years, which these were part of, to join and add to their quality Angus breeding herd. The cows are well handled and provide a great opportunity to secure proven breeders with good bloodlines behind them and the opportunity to join them a time of your choosing to fall in line with your calving.
