| Vendor Comments        | Great chance to buy Stud quality genetics, these cows were missed and not registered through no fault of their own. All calves are black coated and the cows have had access back to the stud Angus bull FUL22T204.                                                                                                                                                                                                                                                                                                                                                                                                            |      |                         |               |
