Temperament	Yards	Crush	Paddock
	Quiet: 25 head	Quiet: 23 head Slightly Stirry: 1 head Stirry: 1 head	Temperament not assessed in Paddock

Generally very good to handle in and through the yards. One heifer was mildly agitated and one heifer was highly agitated in the crush. They simply would not fully settle and exited quickly. Both settled quickly when back in the mob and their temperament was not noticeable from the other heifers when taking photos and videos.

Assessor Comments	A good to mostly very good line of vendor bred EU accredited maiden heifers. These heifers were assessed as 16% medium frame and 84% large frame. They have very good weight for age with an average liveweight of 550kg at 19 - 20 months of age. They are vet preg tested in calf to registered low birth weight Trio and Bowen stud Angus bulls. They are five to seven months in calf with - 9 x 5 months, 13 x 6 months and 3 x 7 months in calf. Two heifers noted with slight blue eye scarring in one eye. These heifers had been selected and joined to come back into the Angle Camp breeding herd but are for genuine sale as they are surplus to requirements given seasonal conditions as Angle Camp. These heifers are EU and Teys Grasslands accredited, have excellent weight for age and have a long breeding life ahead of them.
