Temperament

Yards	Crush	Paddock
Quiet: 57 head	Quiet: 48 head Slightly Stirry: 9 head	Temperament not assessed in Paddock

Generally very good to handle in and through the yards. Nine cows were mildly agitated in the crush. They simply would not fully settle and exited quickly. All settled quickly when back in the mob and were good to move and manage when taking photos and videos.

Handled With	Bikes
Assessor Comments	A good to mostly very good line of vendor bred EU accredited PTIC Cows. These cows were assessed as 10% medium frame and 90% large frame. They range from mostly rising 3yrs old through to the oldest which is rising 6 years old. They are spilt into 10 x Rising 6 yrs old in mid 2025 (2019 Drop), 7 x Rising 5 Yrs, 11 x Rising 4 Yrs and 29 x Rising 3 yrs old (2022 Drop). They are vet preg tested in calf to registered Bungulla and Dunbeacon Shorthorn bulls with 52 cows in a tight 5 - 6 month in calf window. Three cows with slight blue eye scarring in one eye and one cow with moderate blue eye scarring in one eye. One cow noted with 2 x enlarged teats. This is a genuine reduction of prime breeding females as they are surplus to requirements given seasonal conditions as Angle Camp. The good quality EU and Grasslands accredited cows which have a long breeding life ahead of them.
