	Quiet: 28 head		Quiet: 26 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Generally very good to handle in and through the yards. Two cows were mildly agitated in the crush. They simply would not fully settle and exited quickly. All settled quickly when back in the mob and were good to move and manage when taking photos and videos.

Assessor Comments	A good to mostly very good line of vendor bred EU accredited PTIC Cows. These cows are Charolais x Shorthorn and were assessed 100% large frame. They range from rising 4yrs old through to oldest which is rising 6 years old. They are spilt into 12 x Rising 6 yrs old in mid 2025 (2019 Drop), 9 x Rising 5 Yrs, and 7 x Rising 4 Yrs (2021 Drop). They are vet preg tested in calf to registered Bungulla and Dunbeacon Shorthorn bulls. RFID tags and months in calf recorded with 2 x 4 months, 23 which are 5 to 6 months in calf and 3 x 7 months in calf. Two cows with slight blue eye scarring in one eye. This is a genuine reduction of breeding females as they are surplus to requirements given seasonal conditions as Angle Camp. These Euro x cows are EU and Grasslands accredited and have a long breeding life ahead of them.
