| Assessor Comments | A good quality line of vendor bred Angus heifers, that have been PTIC to quality Ben Nevis bulls to calve over a tight three week calving window. Heifers are from a cow herd recognised for their maternal traits and have been joined to bulls selected for calving ease. Heifers are to be sold as two lots of 49 as a genuine run out of the gate. Five heifers (over the entire mob) have slight white markings on, or slightly forward of, the udder. Consider ideal for most commercial Angus breeders to adopt as future breeders. |
