The temperament of these heifers is second to one, not only are they easy to work through the yards I observed these heifers in the paddock handled by a side by side. Good mothers, excellent temperaments.

Notable Traits

	Traits
1 Head	Old pinkeye scar - Single eye.

Assessor Comments	7 x 7 Heifers and calves that have had the Angus bulls running with them since the 5th of December. These Angus & Angus Hereford heifers weighed 469 kg at the time of assessment, They present in great condition with a fresh calf beside them. Although these heifers have not been scan they have had the Hard Hat Angus sires running with them for the past 83 days. The temperament and material traits they display would make these 1st calf heifers a great opportunity for some one to get into some quality young females.
