Assessor Comments
Nice quality 3 in 1 Units!! All the hard work has been done here. These young maidens are doing a great job on their fresh marked and healed up calves, really going ahead. PTIC back in calf to Outwest Angus bull Quiv Tarcutta T38. Cows are in good condition primed up with the next calf in the barrel. 6 with white on underline, only one forward of the naval. Units that would suit a vealer job in the spring given the right plane of nutrition. No need for a bull as they are well back in calf with a tight joining!
