Assessor Comments	A Great opportunity to secure your weaners now, the oats are up or in the ground and its time to secure your cattle now before the recent rain spikes the market even more. A good quality line of mostly Angus x Angus with a small amount of angus British cross calves on offer, weaners present in Fresh condition and were bred out of big framed cows and sired by good quality Angus bulls bred by the Chapmans of Tamworth. A very nice even line of future replacement heifers on offer, long bodied soft famine types that should continue to grow into lovely females. Quality weaners not too be missed that are apart of a full herd dispersal, please see another line of weaner steers from the same herd in this same sale and the breeding herd in the female sale.
