Assessor Comments	A good run of Angus Heifers that would either potentially suit a breeding programme or grow out for the domestic or heavy feeder market. Heifers are NSM. Ideal heifers to go onto improved pastures or a winter crop operation. Great compensatory gain to be had. Only selling heifers due to the lack of rainfall over the summer period. These heifers would have been grown out for the heavy feedlot market. Of the 330 heifers assessed, noticed 18 with small percentage of warts around head, 1 with half tail, 15 with white on udder, 2 with white on naval & 6 with slight blue eye. Heifers will be sold in 3 lots of 110 head, a run out the gate in 3 even lines to the best of our ability.
