Comment on Fat Score 1 Cattle

Seers are strong and would handle a long travel.

Vendor Bred

No

Vendor has owned stock for 2-6 months

Stock History

Steers were purchased from the Marwood family from Kingston in S.A as weaners back in September through November last year.

Lifetime Traceable

100% of cattle in this lot are Lifetime Traceable

Bloodlines

A majority of a Large framed Wonalee Simmental cross Hereford cow base with a introduction of pathfinder angus genetics over the last 6 years.

Grazing Conditions

Dry to some fresh buffel grass and other Native Pasture.

Returned same

Burr/Seed in Coat

No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status

The owner declares that the cattle have not been treated with HGP at any period of their lives

| Assessor Comments      | A Large run of good quality weaner steers that are all frame making excellent backgrounders. Purchased as weaners from the well renown herd of the Marwood families from Kingston in South Australia, steers are from a majortley big framed Simmental/Hereford cross herd that are a base of Quality Woonalee Simmental Genetics, the different family run farms have started to use Pathfinder Angus Genetics through the herd over the past 6 years resulting in a black to Black baldie infused steer in the offspring. Steers Originally went too a lease farm at Booligal in south western NSW where it became hot quickly & water issues forced a move up to western NSW just recently. Steers are growing out well given the circumstances & the nutrition of the feed in pervious months, Given a stable & constant good body of feed these steers should bounce a way. Grass fed & Antibiotic free. Bred from quality Genetics these steers are ideal backgrounding cattle that can only one way !!! |                                           |                                     |
