Handled With	A well behaved run of calves. These calves have had plenty of handling due to an AI program on their mothers. An absolute pleasure to handle in the yards. Bikes , Dogs , On foot , Vehicles		
Assessor Comments	An extremely well bred run of angus steer calves, that have an excellent breeding program behind them. They have been well handled and were very quiet to handle in the yards. These steer calves have been bred to grow out to suit any market in the future, being feedlots or grassfed beef programs. These steers have gained weight since weaning. This lot comes highly recommended and have performed very well for previous buyers.
