	Temperament not assessed in Paddock
	Heifers were good to work with , under pressure every now and again could stir up a little and they will run when they have space as most station cattle will, but i didnt find any of them aggressive in an open yard.

Assessor Comments	Good opportunity to put together a large line of 200 one mark breeders heifers that were all weighed between 300-400 kg to be sold as 2 even runs of 100 out the gate. These heifers have maturity and growth on their side which should mean good compensatory weight gain for the prospective purchaser. The Yammatee cattle have a great reputation with many feedlots throughout the eastern states and I have had good feed back regularly about their performance in feedlots. Yammatee will also offer 102 backgrounder steers in todays sale.
