	Vaccinated	20/01/2025	Tasvax 5-in-1 vaccine	Second Dose
	Other Treatment	20/01/2024	Marks-Min	
	Other Treatment	20/01/2025	Arrest	
	Other Treatment	13/01/2025	De-Stress	

Eligibilities	PCAS Eligible
Temperament	Yards Crush Paddock

	Quiet: 90 head Slightly Stirry: 15 head Stirry: 5 head	Quiet: 85 head Slightly Stirry: 20 head Stirry: 5 head	Temperament not assessed in Paddock

Generally the cattle were good to handle. Vendor has made concerted effort to manage cattle calmly through weaning and health treatments, particularly through using De-Stress in water source. Most steers handled assessment well with approx 5 head showing stirriness in tight confines of weigh cradle. Have at times in the past displayed some run when moving yard to yard but previous purchasers have suggested steers settle well. However, during photographing of steers they looked very relaxed.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A very well bred and beautifully presented draft of weaner Angus steers. The Bellevue herd is 100% Weeran blood with no expense spared on genetics with a focus on above average growth and carcase attributes. Individually weighed into an even line 320kg to 380kg (full) and presenting in strong store to forward store condition, these cattle have proven record of performance in the feedlot and on grass. Previous purchaser feedback has been very positive. Cattle are PCAS eligible & Never Ever Accredited. Steers have had full animal health treatments during the past two months either side of weaning. An opportunity to acquire impeccably bred, well weighted Angus steers with the breeding and capacity to target heavy feeder, trade or export markets (grain or grass) (Vendor offers 230 Angus steers this sale over 3 lots).
