WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Cydectin Long active as of 09/03/2025 for 90 days

Health Treatments				
	Drenched	09/03/2025	Cydectin LA	
	Vaccinated	09/03/2025	7in1	First Dose

Eligibilities	Russian Eligible Saudi Eligible PCAS Eligible
J-BAS Score	6
Vendor Comments	We normally sell them to the feedlots in Dec however due to the water issues we are selling them now.

Temperament	Yards	Crush	Paddock
	Quiet: 73 head	Quiet: 72 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	The steers were fantastic to handle through the yards. They have been receiving Beachport Minerals in the troughs which maybe helping them to keep calm during weaning. There was no bellowing at all.		
Handled With	Bikes , On foot , Vehicles		

Notable Traits		
	Traits	
1 Head	White on the udder and belly	

Assessor Comments	73 EU angus steers all weighed between 190kg - 266kg to average 226kg full. Aug / Sep / Oct drop 2024. PCAS eligible, Grass fed only, Antibiotic free and Vendor Bred. Landfall, Weeran & Te Mania genetics, selecting for IMF (3.8 plus), growth, structure and overall balance. 1 steer had some white on its belly. Given the emphasis on IMF in bull selection I would suggest the steers would marble very well given time. The steers were weaned on the 9th of March and will remain in the yards for 5/6 days, they are receiving a pasture hay and silage every day. They are normally sold at 380-450kg in Dec however the decision has been made to sell now as the property is running out of water. They have weaned extremely well. They walked through the yards with no rushing and were quiet with no bellowing. A tail of 20 has been removed. 77 hfrs are also for sale which would make a B double load. Very well bred steers.
Assessor	**Guy Robertson (Level 2 Accredited)** Phone: 0427 347 098

Delivery Period	18/03/2025 to 21/03/2025 (4 days)
