Assessor Comments	100 Watervalley Angus and Angus cross steers to Ave 253.6kg LW Curfewed. Individually weighed presenting in store condition, supporting good medium frames. They have been subjected to dry conditions and are capable of fast compensatory weight gains given opportunity. This line are the crossbred types removed from the straight Angus line. They consist of white bellies, brown coats, reds, scurs, and a small boss Indicus influence. This is an article that offers an opportunity for a buyer to purchase steers with a hybrid vigour and crossbred influence with a very good doing ability that will go forward easily. A large tail has been removed. Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
