Temperament

Yards	Crush	Paddock
Quiet: 80 head Slightly Stirry: 5 head	Quiet: 69 head Slightly Stirry: 16 head	Temperament not assessed in Paddock

Cows are typical of cattle running in larger pastoral conditions, they are well handled, worked well through the yards and are quiet to handle in the paddock and on waters. Typically some cows did stir up in the yard when placed under pressure or away from there mates. These cows know there way through the yards very well and handle the weighing and drafting process very well. Overall they are well handled cows that know the drill.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Vehicles
Assessor Comments	A fair mob of cast for age station mated store Cows. The vendor acquired the cows when they purchased Adelong in 2019, the previous owner having purchased these cows and the vendors other sale line of 71 Cows & Calves offered in this sale, they represent the last of the breeders from the property purchase. Vendor reports the cows have always preformed well and produced good calves yearly, they have been joined to Red Brahman bulls since December 2024, there will be some cows identified with an orange ear tag that were vendor tested in calf September 2024 due to calve Jan - June 2025 This mob offers a good trading opportunity to calve out or fatten, the cows have been in hand for several days prior to assessment having been walked from other yards to the house yards and held, so expect plenty of compensatory weight gain from delivery, they will do very well coming off light desert type country.
