Assessor Comments: Buyers a line of Angus cows that will require soft feed to finish raising the calf on them, they are in strong store condition & are doing a very good job raising the current calf. These cows have been preg tested with 23 detectable in calf to an Angus bull, but would require a good plain of nutrition to take through & calve out. Of the calves handled 12 are over 200 kg at assessment & there is 1 brindle. The calves are F1's with the bull certificates attached. Of the cows handled 13 are score 1's.
