Temperament

Yards	Crush	Paddock
Quiet: 73 head Slightly Stirry: 2 head	Quiet: 56 head Slightly Stirry: 13 head Stirry: 6 head	Temperament not assessed in Paddock

The heifers were mostly good to handle in the yards and through the race and crush. 13 became slightly agitated in the weigh box or in the crush being preg tested while another 6 head became highly agitated in the crush / weigh box. All settled when back in mob in the larger yards. When being moved in the yards two heifers tended to trot out the front and look for any open gate. Nothing aggressive but needed to be approached and moved calmly.

Assessor Comments A good to very good quality line of vendor bred Charolais and Ultrablack cross heifers. They are preg tested in calf to Palgrove or Boongalla Ultrablack bulls (see bull attached). There is 40 head which were scanned as 1 month - 2 months in calf and another 34 head 3 - 5 months in calf with one at 6 months. The EID and months in calf were recorded and listed as an attachment and is available to the buyer as a datafile. On this property all females calve unassisted. The heifers are medium to mostly large frame and most should grow onto big framed cows. One heifer noted with moderate blue eye in off eye and another two with slight blue spots in one eye. One heifer with buffalo mild fly bite/rub marks on her neck. Heifers had a LWR of 275 - 448 kg after a 26 hr wet curfew. They are located right on the Leichhardt Hwy between The Gums and Moonie and would work in with trucks moving north and south.
