Quiet: 34 head Slightly Stirry: 2 head	Quiet: 36 head	Temperament not assessed in Paddock

These cows were a pleasure to handle, the cows walked off the calves easily with no trouble and were quiet to handle whilst weighing. Some cows became slightly agitated when calves were pulled off, this was not unusual.

Assessor Comments: Buyers here is a opportunity to purchase a good quality line of Hereford cows and calves. The majority of the cows being young cows have all their lives ahead of them with a new calf at foot and ready to be put back to the bulls of the purchasers choice. The Woodbury herd of cows have a long breeding history and are only being sold due to the sale of the property. They stand on good bone and mostly have sound udders full of milk, they are doing a great job on their calves.The mob includes a number of stud cows however being sold as unregistered cows. I would expect these cows will be an asset to a commercial herd to be retained as breeders.
