Assessor Comments

A good opportunity to purchase a line of well bred Hereford Heifers that are PTIC 4-5mths in Calf to Ironbark Hereford Bulls. These Heifers are showing good breed characteristics showing good softness, depth and length of body that should grow out to be an asset to any breeding operation. Please note this is the first time the vendor has offered any PTIC females for sale in over 10+ years. Vendor has been purchasing Ironbark Hereford Bulls for 20+ years sparing no expense on good genectics.
