Vendor Comments

Heifers that are part of a normal turnoff of surplus future breeders. We do not have any record of the animal ID's for the bulls used over these heifer so unfortunately no EBV's available. They were however purchased suitable for a heifer joining.

Assessor Comments	Buyers, an attractive line of young 1st calf heifers all PTIC 4-6 months to Angus bulls. Heifers are in very good condition and are extremely quiet. These will suit a restocker looking to secure additional young breeders to replenish a herd or make a great start up herd for someone wishing to break into the Angus breed. Heifers are well grown and show plenty of quality. Please note there are 85 heifers here all up being offered in three lots to fill a light 4 decks, they would be too tight for a B-Double.
