| HFRS HANDLED EASILY THROUGH THE YARDS. ODD HFR WAS AGITATED WHEN PUT UNDER PRESSURE ESPECIALLY IN CRUSH. THEY DID SETTLE WHEN THEY WENT BACK TO THE MOB. WOULD SUIT A MORE EXPERIENCED HANDLER. THESE HFRS DO SHOW A LITTLE BIT OF FLY AND HAD BEEN PREGTESTED RECENTLY MIGHT OF ADDED SOME EXTRA PRESSURE TO THE HFRS CAUSING THEM TO BE AGITATED. NO NASTYS JUST LOOKING TO MOVE AWAY. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                          |                                     |
