Assessor Comments

An excellent line of 10 PTIC Angus cows. Reiland Angus Stud is renowned across the East coast of Australia for producing quality Angus cattle to perform in any conditions. This is an opportunity to purchase high quality Angus genetics that will be an asset to any breeding program. These cows are in forward condition and are in ideal condition for this stage of the pregnancy. These cows express lovely feminine traits and are proven breeders in the Reiland herd having been in the program for a number of years. These cows will not only provide high quality sale progeny but also offer great genetic gain for the purchaser running a self-replacing herd. NB: Odd cow with white on udder. Odd cow with small amount of warts. One cow with blue eye.
