Assessor Comments	A great opportunity to secure a Very Neat even line of Angus heifers that are one mark. This line of heifers are PTIC to a LBW Bald Blair Angus bull that were joined over an tight 6 week period to start calving from late August. Heifers were purchased from the Tenterfield area off Coolvale Pty Ltd late last year and are base of Eaglehawk Angus Genetics, Heifers have sense been joined and had great joining rates showing great fertility. Heifers are really bouncing away on the back of flush of recent feed and still have plenty of growing left given a continued rising plane of nutrition. A great commercial article on offer. Very Quite easy to handle heifers with Temperament a key, not to be missed.
