Pregnancy Terms	
Other Joining Details	Three Heifers were tested not detectable at the time of testing but could still be in calf as the bull was only taken out on the 17th of February.

Quality Grades	
Very Good	52%
Good	48%

Temperament

Yards	Crush	Paddock
Quiet: 19 head	Quiet: 18 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

Heifers are very quite and were easy to handle in and around the yards and in bigger holding paddock. Would suit someone needing quite cattle.

Handled With	Bikes , Dogs

Notable Traits

	Traits
1 Head	Old pink eye scarring in one eye

Assessor Comments	*** A Quality line of well bred PTIC Heifers with quality Angus calves at Foot *** A great opportunity to secure a small line of Young Angus Breeders that offer a 3 in 1 Package. Heifers are knowla Angus blood and are moderate framed easy doing females that present in good condition considering the dry conditions, Heifers are doing a great job of their calves given the circumstances. Calves were sired by quality Glenavon Angus genetics, there are 12 steer calves and 7 heifer calves that weighed to a top of 188 kg. All calves have been marked and given their second shot of 5 in 1. Heifers have been joined again to a Texas Angus bull and 16/19 were scanned in calf on the 03/03/25, Three heifers were non detectable but still have a good chance of being in calf as the bull was only taken out on the 17/02/25. Another stand out feature of these quality females is their temperament, very quite natures that made them super easy to handle. A quality breeding package not be missed.
