Assessor Comments	PROUDFORD AGRICULTURE CO WILL OFFER 95 HEIFERS IN THIS GROUP TO BE SOLD IN 3 LOTS RUN OUT THE GATE (32HD/32HD & 31HD). THE VENDORS WILL OFFER A TOTAL OF 137 HEIFERS IN THIS SALE. They have been purchasing bulls off Reiland for the past 15 years their focus has been on positive fat, low birth weight, 400 & 600 day growth. The vendors class their heifers annually prior to joining on confirmation, type & temperament. These heifers were all selected to be retained in the herd and joined. The vendors run an AI program annually and have decided to only retain the AI pregnancies meaning the purchaser has an outstanding opportunity to access a large line of classed in females. The quality of the genetics shows in these heifers which are well grown and in ideal condition for this stage of the pregnancy. They would be an asset to any Angus herd and will make excellent matrons for years to come. NB: In the mob of 95 head; 11 have a blue eye/pink eye scaring. An odd heifer with warts/ring worm.
