These cattle would be best described as active. If there was opportunity for the pressure to be let off them with an open gate they would run through. For any experienced handlers these heifers will be no trouble and I believe with further low stress handling they could become quieter. Vendor works off farm so cattle aren't regularly handled and when they are, they get pushed around in laneways with bikes and dogs.

Handled With	Bikes , Dogs , Vehicles
Notable Traits	Traits 6 Head White undercarriage, range from small patch on navel to large white area.
Assessor Comments	On offer is a good quality line of PTIC heifers. Heifers were joined for a tight 7 week joining and are too commencing start of July. Vendor sources high indexing sires from Bongongo Angus each year. Heifers are predominately medium frame and will mature into good working females. They present in good forward order, perfect for calving. Vendors herd produce some very good doing progeny each year and there is no reason why these heifers won't do the same for the purchaser. For any further information please call assessor.
Assessor	Harry Waters (Level 1 Accredited) Parallel Assessed By : Angus Wright
Delivery Period	17/03/2025 to 21/03/2025 (5 days)
Delivery Point	5kms North-East of Gundagai Lat: -35.060838 "S Lng148.1018203 " E
