Assessor Comments	48 x 48 Watervalley Black Angus cows (390.2kg curfew) with their first calf at foot (147kg). The cows are predominantly 3 years old, with approximately 10%, 2 and 4 years old. The cows have been individually weighed between 360-500kg presenting in store condition, and fresh store condition supporting good frames. A very small crossbred influence is visible in these cows, but generally true to Angus type. The cows are holding body condition well raising good calves, which present as being well grown for age and fresh. The cows have not been rejoined. A large tail removed at assessment. (Note. Calves consists of 2 drafts and have been videoed, photoed and handled as one. And will be mothered accordingly prior to delivery) Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
