Good to handle in the paddock and yards. 14 were slightly quicker in the race and eager to exit largely due to a sticky slide gate & second time around however settle well when back in the mob. Overall they are a very well handled mob of steers.

Notable Traits

	Traits
1 Head	moderate / heavier muscling
2 Head	old fly marks
4 Head	white face or underline

Assessor Comments Good quality Santa & Santa x cross steers well grown & relatively even in overall strong forward store condition with frame, potential & scope to quickly gain weight on good quality feed.They would benefit from a fly preventative treatment (depending on destination) with some starting to lick their shoulder at assessment. Be sure to view the photos for breed clarification and style.
