Assessor Comments	On offer is 86 Crossbred steers that averaged 252 kg curfewed after 12 hours off feed and water. Steers are very well mannered and where a pleasure to hand in the yards and weighed in the crush without fuss. Vendor has a crossbred base herd and uses Charbray, Droughtmaster, Simmental and Santa sires. Steers show good bone and length of body to grow out to good heavy feeders or export bullocks if given the chance. Steers will have been weaned for 2 weeks by the time delivery comes and vendor takes great pride in educating his cattle. Purchasers please take note 3 steers are a family brand are a different ear tag but are by same cattle. A large compensatory gain on offer for these cattle being locked up for a period and I expect them to bounce away on good feed. Local transport can be arranged. Buy with confidence.
