Assessor Comments	Buyers these composite backgrounder heifers are suited to be taken on to trade or heavy feeder weights. They could also be taken through to export weight or have breeder quality heifers selected & joined to a bull of your choice. Of the heifers handled there was 1 heifer that had slight blight in 1 eye & was treated with terramycin at assessment & will be checked before delivery. There is 1 heifer that shows more Bos Indicus traits then the rest but had minimal crest, see photos & video. Vendor has 50 composite heifers same sale.
