Calves still on their mothers. Became a little agitated when separated from their mothers in the crush. Will need to be

Handled With	weaned and handled. Bikes , Dogs , On foot , Vehicles
Assessor Comments	Top line of 105 Angus X Angus Weaned steer calves. Calves are 6.5 - 7.5 mths of age and were Weaned at Assessment and will remain in yards until Delivery ,on Oaten Hay, broke in to Dogs, and walked through race & crush Daily. Please take this into Consideration when Buying. Vendor has been breeding Angus cattle for 20 years and always purchases at the top end when buying bulls ensuring the best genetics are filtering through the herd. Steer calves are by Millah Murrah , Booroomooka & Booragul Angus bulls showing true to type Angus breed characteristics with good bone, length and conformation. Ideal steers to background for the high end Angus grass or grainfed programs. Steers were good to handle through the yards and crush. While taking the video they did run a little but with good weaning, breaking and handling they will be fine. Note: Odd blue eye scarring- not considered detrimental. Also there is 51 of there Heavier Brothers in same sale.
