Assessor Comments	51 Top line of Angus X Angus Weaned steer calves. Calves are 7.5 - 8.5 mths of age and were Weaned at Assessment and will remain in yards until Delivery ,on Oaten Hay & broke in to Dogs & Walked through race and crush Daily, Please take this into Consieration when Buying. Vendor has been breeding Angus cattle for 20 years and always purchases at the top end when buying bulls ensuring the best genetics are filtering through the herd. Steer calves are by Millah Murrah , Booroomooka & Booragul Angus bulls showing true to type Angus breed characteristics with good bone, length and conformation. Ideal steers to background for the high end Angus grass or grainfed programs. Steers were good to handle through the yards and crush. While taking the video they did run a little but with good weaning, breaking and handling they will be fine. Note: Odd blue eye scarring- not considered detrimental. All can be seen in photos and video. Also there is 105 of there Lighter Brothers in same sale.
