Assessor Comments	A good line of Weaned Angus steers, weighing 199kg - 256kg at assessment. These steers were weaned in early Feb in the yards with a weaner mix and cereal hay, since, they have had education through the yards and up paddocks and laneways. Predominantly out of Texas and Wattletop blood cows and sired by Te-mania and Texas bulls. An ideal lot to grow-out on winter crop and finish to a feedlot weight or potentially hold for a quality kill carcass. Note: 8 steers observed at assessment had slight white on their purse. 1 steer observed had white from the underside of his brisket through to his purse (as seen in photos). 2 steers had mild blue eye scarring. and one steer had a white birthmark between his eyes and nose, (as seen in photos).
