Assessor Comments	2 Decks of Angus & Angus Cross Steer Weaners that are ready to bounce ahead on a fresh paddock. Lead draft of vendors Spring drop calves with a 25% tail taken off. Seasonal conditions dictate the sale of these calves that would normally be sold later and at heavier weights but with the ongoing dry and lack of paddock feed they are presented for sale. Steers are not carrying any excess condition and present in store order after coming through a tough Spring/Summer period. Previous years these steers were sold as heavy feeders and grass fed kill cattle so they have the breeding and frame to grow out into export kill bodies. There were 5 steers noted with old pinkeye blemishes but still have full sight, please see last photo for example. Grass Fed Declaration available on request. Located right on the edge of Holbrook with easy truck access off the freeway.
