Assessor Comments	This is a small line of well bred Angus heifers that are showing excellent length stretch and frame for there age. Vendor always has a small line of steers and heifer this time of year as he spreads his calving out. These cattle always preform extremely well when placed on hard feed as they are raised on light country. These heifer will grow into big frame cows and be a great small line to add to purchaser breeding herd and or idea to feed into great meat. The vendor has a small line of steers is this sale as well which may help with trucking.
