	Quiet: 37 head Slightly Stirry: 17 head Stirry: 5 head	Quiet: 37 head Slightly Stirry: 17 head Stirry: 5 head	Temperament not assessed in Paddock In general these flowed through the yards quite well. When under pressure or in confined area in the pound the odd cow stirred up a bit however I never felt unsafe working these cows. Cows settled well once back into the bigger holding yards. Are well handled in the paddock being handled through a rotational grazing program.
Handled With	Bikes , Dogs , Horses		
Notable Traits	Traits 2 Head Fly Bite		
Assessor Comments	On offer is 59 station mated cows. These cows have been running with Taloumbi Brangus bulls from the end of November to the start of March. The cows are presenting in fresh to prime condition and would ideally suit to go back to the paddock to calve out or go straight to slaughter. These cows are typical of a trade mob type quality with cows ranging from fair to very good quality. This line of cows are the flat back types out of the mob and the vendor has another mob of the tropical type cows in the same auction. Please note in the video there is one brahman cow she belongs vendors other sale lot.
