Assessor Comments	Here are a nice line of 10 good quality droughtmaster heifers PTIC to a Kellash Angus Bull. 9 heifers are PTIC at 3 to 4 months. 1 heifer was PTIC at 6 months. Please not this heifer could either be in calf to a Angus or Speckle Park bull. These heifers are first calvers. These heifers have all their breeding life in front of them. These are very good sized heifers to be calving out for the first time. They are showing great feminine traits and would make great replacement breeders in anyones herd.
