Vendor Comments

These are heifers we purchased to grow out to be sold but we decided to put them in calf and calf out as they were good

	Cows handled well throughout yards. 4 cows were slightly stirry in yards and crush but settled the longer they were in yards			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Here is a very nice line of good sized Charolais cross heifers presenting with their first calves by a Carrabar Angus bull. These heifers have continuously been running back with the Carrabar Angus bull since calving so there is a good chance that some of these heifers will be back in calf. Heifers are good framed growthy types. These heifers are all branded number 3's so they have all there breeding life in front of them. The heifers are doing a good job on their first calf and they are ideal breeder types. Please note withholding period on these heifers and calves - Heifers have a 42 day ESI from treatment on 16/3/25 and the suckling calves have a 120 day withhold period from treatment on 16/3/25			
Assessor	Brad Cavanagh (Level 3 Accredited)
