Assessor Comments	Buyers 56 x 56 Angus & Crossbred Cows & Calves with good healthy Angus X flatback calves at foot. Cows are best described overall as large frame and in store to forward store condition. Calves range from 1 to 4 months of age with most being Dec to Feb drop with an average weight of 105kg sired by Angus Composite bulls. Cows are doing a great job on calves and producing plenty of milk. Cows will fatten to heavy weights on fresh feed to make an ideal fatten & split unit for the winter crops. Cows are predominantly young with 85% being 2-5 yrs of age. At assessment 1 x calf had slight blight but was treated at assessment and not seen to be an issue, also 1 x calf was noticed with a growth/lump on head photo of it in crush(last photo). Good quiet cows that will suit both future breeding or a trade.
