| Assessor Comments      | Very nice line of very well bred females in excellent condition! Pregnancy tested in calf from 5 to 7 months to quality sires! These cows have produced top quality calves since purchase and should do so for years to come! Right in the prime of their productive lives. 18 cows purchased in May 2022 off reputable southern breeder, balance of the cows are vendor bred, classed in breeders and are PTIC to have their second calf. Due to running on heavy black country the cows have slightly longer toes, see photos. 1 cow with chipped toe, lame in videos will be reassessed prior to trucking. |     |                |
