Assessor Comments 32 x 32 Watervally Black Angus cows (354kg curfew) with their first calf at foot (147kg). The cows are predominantly 3 years old, with approximately 10%, 2 and 4 years old. The cows have been individually weighed between presenting in store, and fresh store condition supporting good frames. A very small crossbred influence is visible in these cows, but generally true to Angus type. The cows are holding body condition well raising good calves, which present as being well grown for age and fresh. The cows have not been rejoined. A large tail removed at assessment. (Note: Cows and calves are all black. No red calves included in this draft) (Calves consists of 2 drafts and have been videoed, photoed and handled as one. And will be mothered accordingly prior to delivery) Watervally cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
