	Stirry: 2 head		Stirry: 4 head			
Handled With	Vehicles					
Assessor Comments	20 x 20 Watervalley Black Angus cows (340.5 kg curfew) with their first calf at foot (115 kg). The cows are predominantly 2.5 years old, with approximately 15% x 2 years. The cows have been individually weighed between 310-408 kg presenting in fresh store condition, supporting good medium frames. A very small crossbred influence is visible in these cows, but generally true to Angus type. The cows are holding body condition well raising good calves, which present as being well grown for age and fresh. The cows have not been re-joined. A tail removed at assessment. Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
