Handled With	The steers were an absolute pleasure to work through the yards with only 4 becoming slightly stirry in the crush, although when returned to the mob were fine. You can walk all through these steers without any hassles. Bikes , Dogs , Horses		
Assessor Comments	A very good quality line of steers for the front paddock, although described as unweaned in the title, 90% of the steers look to have been paddock weaned by their mothers. These steers will perform wherever they go after coming off the lighter country at Baralaba. The steers show great length & weight for age. They were an absolute pleasure to work through the yards without any hassles. All the hard work has been done by the vendor & the steers are ready to move forward for your gain.
