	Weaners were very good to handle, however due to their age and being unweaned will require a basic settling in period on arrival to a new environment.

Notable Traits	Traits 28 Head Light Buffalo Fly 1 Head Steer Slightly Swollen Navel Cord		
Assessor Comments	Buyer, on offer is a quality line of 28 Unweaned Angus & Angus Cross mix sexed weaners for your consideration. This line consists of 18 castrated steers and 10 heifers, and were very quiet and easy to handle making them an ideal backgrounder article. Weaners have only become up for sale as vendors have experienced on going dry conditions, and calves will require early weaning, meaning these weaners are still presenting in store condition and will acclimatise quicker than those coming off their mothers in better pastures. Buyers, this is a rare chance to purchase light weight weaners which will suit all domestic feeder markets in the future with the added benefit of being located 5 minutes off the Leichhardt Highway at Wandoan QLD.
