Assessor Comments	A good to very good quality line of vendor bred Angus weaner steers with good weight for age. Good medium frame steers with good conformation, they are not carrying any excess condition. 245 to 335kg at assessment 4 hours off feed, they are ideal to take forward to export feeder weights. They were yard weaned on 13/03/25 and have been handled using Low Stress Stock Handling techniques and are extremely quiet. They are educated to hay racks and self feeders. They are located just off the Barwon Highway approx 15 km west of Goondiwindi and would be easy to link into any carriers moving north or south.
