Assessor Comments	Buyers a line of predominantly Droughtmaster heifers that replacement breeders can be taken out of & joined to bull of your choice. They would also suit trade or heavy feeder weights, could be grown out to grass export weights. Of the heifers handled 3 had black noses of which one heifer showed more Bos Indicus traits with a minimal crest. Of heifers mouthed all but 1 were solid milk teeth, only 1 heifer showed wear in the front teeth.
