Assessor Comments	115 Angus Weaner Steers. Steers are only just 7-8mths at av282kg. Pure Te Mania Angus Bloodlines these steers speak for themselves. These steers are showing all the attributes of the years of breeding behind them with a very nice long thick barrel from nose to tail, great bone and a beautiful quiet temperament to go with it. With a long breeding history of Te Mania blood this self replacing cow herd has a focus on 400 day weight and IMF with steers repeatedly hitting feeder and kill targets with very good feed back. Steers are never offered as weaners and usually kept through to feeder and kill weights year in year out! If you want an excellent line of 1 mark steers that will not disappoint this is an opportunity not to be missed. Come with highest of recommendations!
